

Making Moments Matter

Carpenter Hospice is a home in the heart of Burlington that offers both residential-based care and community-based programs to people in the last stages of their lives. It lets residents spend their final days together with loved ones in an environment that is peaceful, comfortable and meaningful. It is staffed by a dedicated team of professionals and volunteers who provide compassionate, palliative care to meet residents' every need and ensure that each moment counts.

Registered Nurse (0.5 Part-Time) 72 hours (6 X 12 hour shifts every four weeks)

Summary

Reporting directly to the Resident Care Co-ordinator, the Registered Nurse shall, through the nursing process, determine and provide the professional care needed by the residents. The RN will assume a lead role in the interdisciplinary team providing direction and supervision for the care given by the Registered Practical Nurse, Personal Support Worker and the Hospice Volunteers. In addition, the Registered Nurse will liaise with all other health care providers to develop and maintain a resident and family centered plan of care.

Professionalism

In the role of Registered Nurse, you are expected to demonstrate professionalism through excellence in knowledge, judgement and behaviour. In the course of your duties, you will consistently demonstrate our core values of respect, honesty and equity. You will honour confidentiality and the autonomy of the residents and staff. You will demonstrate individual reflective practice and contribute to the reflective practice of colleagues in order to enhance individual and team competence and capacity to deliver the highest calibre of care to residents and their families and to identify challenges and contribute to solutions to improve and enhance the work environment for staff and volunteers

Duties

Essential Responsibilities:

- Assume the responsibility for all aspects of resident care in accordance with the Regulated Health Professionals Act and the College of Nurses of Ontario Practice Standards.
- Be the team leader for the duration of her/his shift of duty.
- Plan and distribute the workload and schedule the breaks for the day in collaboration with the rest of the care team
- Determine if delegation of care to other members of the team is required
- Participate in resident review and be available to assist visiting physicians or other members of the interdisciplinary team
- Assist with any short notice staff replacements or calling in additional staff due to the acuity of care in the residence.
- Monitors and assumes responsibility for maintaining a safe and healthy environment.
- Ensures all medications are processed and recorded according to legislative and regulative requirements; e.g. counting of opioids at shift change.
- Other duties as required

Assessment

- Performs physical, psychosocial, spiritual and emotional assessment of the resident, including their families as appropriate, as determined by the residents' individual needs.
- Recognizes, assesses, and responds to resident health status changes
- Summarizes and reports clinical and other situations with other team members including shift report.
- Acts upon reports of resident status change as received by other members of the team.

Planning

- Determines resident care requirements and establishes a comprehensive plan of care dependent on the goals of care.
- Works collaboratively with other members of the healthcare team to determine the plan of care.
- Consults with the resident, family members and/or the substitute decision maker regarding needs, wishes and preferences for care.
- Consults with the Community Care Access Centre Case Manager regarding additional services as required for the care plan.

Implementation

- Implements and coordinates interventions in order to meet the goals of care as outlined in the treatment plan.
- Ensures effective written and verbal communication to other service providers.
- Administers medication and treatments as required/ordered, monitors for effectiveness and sides effects.
- Documents accurately and in a timely manner according to the College of Nurses Practice Standard and Carpenter Hospice's policy.
- Orders and maintains medical supplies according to resident needs in collaboration with CCAC.
- Identifies and reports unusual incidents in the delivery of care in the hospice to the Executive Director or clinical supervisor in a timely manner.
- Delegates and /or teaches skills and techniques to other staff and /or resident families in compliance with all relevant legislation and regulations.

Evaluation:

- Reviews, evaluates and/or revises the care plan on an ongoing basis.
- Evaluates nursing and medical interventions for effectiveness and ability to meet the goals of care.
- Confers with resident and family re satisfaction with, changes and goals of the plan of care.
- Assists with the writing of clinical policy and procedure when asked.
- Any other duties as assigned.
- Other duties as required.
